Dear Planning Commission

I have been an owner of 160 Acres in the old Jotti Development site for over 15 years and understand if developers do not perform accordingly with the master plans that are approved by City and State. I am encouraged to see a plan to develop the neighboring property. I am for the development as long as they abide by their plan of making efforts to review and protect the historical, animal, nature, and integrity of the beautiful area we all love in the Storey county area.

Please acknowledge that I am voting yes for the development and hope this improves the area for future developments that can be mutually developed between county and private business.

Best regards

Roger J. Niez
